Beanie Invitation Pattern

Print the patterns onto cardstock and trace onto blue or brown construction paper. Add "seams" with a blue or brown marker and color the Daisy or Brownie emblem and add it to the front. Use yarn to make a loop for the top of your bean. Attach it all together with a single staple at the top. You may wish to use a bit of glue to hold the loop in place.

The smaller pattern can be customized with your own wording and glued inside the invitation.
